

GENERAL OTIS TO SECRETARY ALGER

Transports Carrying Sick and Wounded.

VOLUNTEERS MAKE A SACRIFICE BY REMAINING.

Succeeded in Passing Army Gunboats to Calumpit For Use in the Rio Grande—Hailed With Joyful Demonstrations By Inhabitants—Signs of Insurgents' Disintegration Daily Manifested—Transport Hancock With the Twenty-First Infantry, Numbering Fourteen Hundred Members Arrive At Manila and Will Be Sent to San Fernando to Relieve the Exhausted Men of Mac Arthur's Command.

Manila, May 11.—[Special]—The transport Hancock with the Twenty-first infantry, numbering fourteen hundred men arrived from San Francisco this morning.

The arrival of Hancock was timely, as fresh troops must be sent to San Fernando to relieve the exhausted men of MacArthur's command.

Two privates died enroute.

Fresh Troops for Philippines

Washington, May 11.—[Special]—The war department is preparing to send four regiments of regulars to Manila by way of New York and the Suez canal. The regiments that probably will go will be the Seventh and Ninth Infantry and the First and Seventh Artillery.

On the Pacific coast two more regiments of the Sixteenth Infantry will start for Manila this month.

Burial of Col. Egbert.

Washington, May 11.—[Special]—The remains of Col. Egbert, the hero of several Philippine battles and who was killed while leading a charge on the Filipino trenches, was buried with military honors at Arlington cemetery today.

His is the first body of those killed in the Philippines to be brought to Arlington for interment.

Secretary Alger, General Corbin and a large number of army officers witnessed the ceremonies.

SUCCEEDS IN PASSING GUNBOATS

Now at Calumpit For Use in the Rio Grande

Washington, May 11.—[Special]—The following from Otis this morning gives the situation as follows: Succeeded in passing the army gunboats to Calumpit for use in the Rio Grande. The railways connecting with that point were secured this week. The passing of the gunboats through the Macabebe country was hailed with joyful demonstrations by the inhabitants.

In the country passed over by the troops, temporarily civil administration had been inaugurated and a protection to the inhabitants against the insurgents' abuses given as far as possible.

Signs of insurgent disintegration was daily manifested.

General Otis also cabled the following in answer to the query from Secretary Alger asking about the return of the volunteers from the Philippines:

"The volunteer organizations are the first to return, and are now at Negros, and forty-five miles from Manila at the front. It is expected that the transports now arriving will take the returning volunteers. The volunteers understand that they will leave for the United States about the latter part of the month. They know the importance of their presence here at this time, and accept the sacrifice which the United States' interests make imperative. The transports returning this week are carrying the sick and wounded."

Manila, May 11.—General Manager Higgins of the railroad running between Manila and Panajassan has just returned from the insurgent lines. He says that the peace commission headed by Major Arqueles was sent by Aguinaldo because he was laboring under the impression that the Americans were tired of fighting but were too proud to ask a cessation of hostilities.

Thousands Digging Trenches.

North of San Fernando 5,000 laborers are at work digging trenches. They have also destroyed a good many miles of railroad track.

Mr. Higgins reports that Gen. Luna was wounded at San Isidro. The gunshot wound he received, however, did not prevent him from remaining at the head of the 5,000 armed troops which are ready and eager to continue the war with the Americans. He claims the Filipinos have plenty of ammunition and supplies, and that because of the rich country to the north they will be able to continue the war indefinitely.

Aguinaldo a Mere Figurehead.

Gen. Luna, according to Mr. Higgins is the most influential native on the island. Aguinaldo, according to the same authority, is a mere figurehead. He says that after the battle at San Tomas Gen. Luna and Gen. Mascarañas quarreled and that they nearly lined up their commands against each other. This rumor reached San Fernando a couple of days ago.

It is said that Gen. MacArthur's men overlooked nearly 6,000 Winchester and Mauser rifles which had been abandoned by the insurgents. The American officers here do not put much faith in this statement by Mr. Higgins. They say that a great many arms were captured, and they are confident that all which were left behind by the Filipinos were found. Up to date the Filipino loss has been very heavy, but Mr. Higgins will not attempt to estimate the aggregate number of deaths.

Luna Missing on Army.

Gen. Luna is missing his army east of the railway, bringing up troops by train loads in sight of the American lines. The country between San Fernando and Calumpit is filling up with natives, who profess great friendship toward the Americans, but who are suspected by many of sympathy with the insurrection.

Transports Sail for Home.

The United States transports Puebla and Pennsylvania sailed for home Wednesday by way of Nagasaki. The transports Charles Nelson and Cleveland leave today.

Strong Desire for Peace.

Reports received from the insurgent line, which, however, have not been confirmed, say that a meeting of the Filipino congress has been held at San Isidro. There was no quorum present, but in spite of this fact some business was transacted. The reports add that although those who attended were mostly partisans of Aguinaldo, a strong desire for peace was expressed.

Maj. Gen. MacArthur will probably remain at San Fernando until fresh troops can be forwarded to him from this city to replace some of the volunteers who have become exhausted from the long campaign.

Filipino rifleman to the number of 8,000 are entrenched on three sides of Bacolor. The Americans, however, are fully able to hold the city if Monday's attack was a specimen of the enemy's fighting ability.

Says Filipinos Won't Quit.

London, May 11.—Senor Lopez, the Filipino agent in London, discredits the report of the desire of the Filipinos to surrender. The last advice he received from his government showed that they had no intention to surrender, he says. President Aguinaldo, he says, is still in supreme command. Senor Lopez contradicts the reported division of the Filipino forces under Mascarañas and Luna.

Rebels Have Machine Guns.

Manila, May 11.—The insurgents have succeeded in landing ten machine guns at Capiz, on the island of Panay.

McKinley to Tour the West.

Washington, May 11.—President McKinley proposes to make a tour of the west during his coming summer vacation. Arrangements for the trip have not yet been perfected, but it is understood that he will go to San Francisco by the Southern Pacific route and return to this city on board a special train of the Northern Pacific, stopping en route at the Yellowstone park and other points of interest. He will leave about the middle of July and be gone probably six weeks.

When approached this evening he declined to say anything in regard to the matter more than that one member had resigned.

Wente, and disappeared from his boat at Kenosha last week, and it was supposed that he was drowned, but it appears that he came here, registered at the Belvidere house, and remained until last Saturday, when he paid his bill and departed. While at the hotel he wrote his father a letter in which he stated that his parents need never expect to see him again. The father believes that his boy committed suicide.

SCHEME FOR GOVERNMENT.

McKinley Outlines to Schurman Practically Autonomous Form of Rule.

Washington, May 11.—The secretary of state has telegraphed to President Schurman of the Philippine commission, by direction of President McKinley, a statement of the character of the government that the United States will be willing to establish in the Philippines after the surrender of Aguinaldo's forces and the restoration of peace. The proposed government is to be more civil than military, and somewhat similar, although a little more liberal even, than that now in operation in Porto Rico.

The head of the government will be a governor, whose functions will be civil, although he may be a military man. There will be an advisory council, composed of natives of the Philippines, whose business it will be to confer with the governor on official matters and suggest changes in the manner of exercising authority. The local governments will be entirely in the hands of the natives, subject to certain supervision by the American authorities.

The plan proposed amounts practically to an autonomous system, and it is believed here that it will be acceptable to the natives. It will continue only until congress decides what shall be the character of the permanent government of the islands.

While the officials of the administration say that they have had no information from President Schurman or Gen. Otis for several days as to the situation in the Philippines, confidence is expressed that negotiations for peace are being conducted. President Schurman has been instructed to communicate to Aguinaldo or his authorized agents the proposition of the United States in regard to the character of the government to be established when peace was assured, and it is practically certain that he is now conferring with the Filipinos on that subject.

LOVERS SEEK ILLINOIS

Marriages of Outside Couples Here Will Now Be Scarce

Local divines and justice-of-the-peace are of the opinion that Illinois couples who have been coming to Janesville to wed, will in future be noted for their absence.

It may be that in the future to avoid the five days publication clause of the new Wisconsin marriage law Badger state lovers will cross over to Illinois and have the knot tied by some Prairie state person. At any rate that is what a Wisconsin couple did Monday. They were Adam Greenwood and Miss Hannah Anderson, both of Kenosha. The wedding occurred at Rockford and immediately after the ceremony the united twain started back on the train for their Wisconsin home.

Woodmen's Picnic at Beloit.

The committee of arrangements for the above occasion have selected the O. & N. W. as their official line, and have chartered a special train, to leave Janesville at 8:00 a.m. the morning of June 1. The fare for the round trip will be 45 cents.

Blow to Loan Associations.

Springfield, Ill., May 11.—Attorney-General E. C. Akia has given an opinion which, if upheld by the courts, will seriously cripple building and loan associations, if it does not drive out of existence every such organization in the state. He holds that notes, bonds, mortgages and stock of associations cannot be assessed to the association; that the stock must be listed in the name of the holder, this rule being applicable not only to non-borrowers, but also to shares held in pledge of security for loans. The borrower must be assessed not only on the property mortgaged, but also on the pledged shares on which his loan was secured nor is he entitled to any "set-off" or deduction against the value of his stock, or on account of money borrowed by him from the association.

Kansas City, May 11.—The Catholic Knights of America, who met in annual convention here Wednesday, resumed the old fight over the question of admitting women to membership almost as soon as the convention was called to order. After a long debate a vote was taken and the women were defeated. The final vote was 274 in the affirmative and 178 in the negative. As the proposed amendment required a two-thirds majority to carry, the champions of the women were vanquished. An effort to reconsider the vote will be made.

She Did the Best She Could.

A teacher in one of the Cleveland public schools said to the class in English composition—"I wish every member of the class would write out a conversation between a grocer and one of his customers, introducing some pathetic incident or reference." Among the compositions headed in was the following by a sweet little girl—"What do you want?" asked the merchant. The lady replied, "A pound of tea." "Grege or black?" asked the merchant. "I think I'll take black," said she. "It's for a funeral."—Cleveland Leader.

Hibernation of the Toad.

Ordinarily, the toad hibernates in the earth, preferably in dry soil not apt to freeze. It buries itself backward, its hind feet and the end of its body serving to scoop out its hole, while it pushes itself in with its forelegs. Once buried, it leaves no trace whatever of its hiding place. When it is in a temperature near the freezing point its own temperature is three-fourths to one and one-fourth degree higher than that of the surrounding medium.

Mrs. Elizabeth Capelle's spacious South High street home is having added a third story to be used as a billiard room.

Mrs. Susan M. Jerome's South Jackson street home is being extensively remodeled. The entire house has been raised several feet and other improvements made.

Frederick S. Eldred is making costly improvements on his South Jackson street home.

Lima Center

Lima Center, May 11.—Rev. Millar, of Milton, preached at the M. E. church last Sunday. Mrs. Chapman Sundayed in Whitewater. Mr. and Mrs. Nugent entertained company from Whitewater, Sunday. Rev. Lengfield was calling on friends here last Tuesday. Mr. and Mrs. Will Reed, of Janesville, are spending the week with friends here. J. D. Godfrey has purchased the Hull place and will soon move into the village. Mr. Anderson, of Turtle Lake, visited his daughter, Mrs. Reese, last Wednesday. Plenty of rain, and small grain never looked better. The auction at Mr. Hull's was well attended and the household goods sold well. Mrs. Jessie Millard enjoyed a visit from her parents last Tuesday. The children are preparing for Arbor day. Would it not be well for all who can to attend, and show some interest to the teacher and scholars in their work, by so doing?

Taking No Risks.

A Columbia Heights woman, who is vouched for by the Washington Post as exceedingly fond of animals, had an odd experience with one—or two—while waiting at a city railway station for a belated train. In the seat next to her sat a small dog, who evidently belonged to an elaborately dressed woman in the seat just beyond. He was a friendly little dog, and looked up at the Columbia Heights woman with a wag of his tail, which was an outward and visible sign of a desire to make friends. She leaned down and patted him on the head. His elaborately dressed mistress immediately reached out and took her precious pet into her lap. "Pardon me," said she, apologetically, "but my dog is not allowed to kiss strangers."

Old Lighthouses.

The oldest lighthouse in existence is believed to be that at Corunna, Spain. It was built in the reign of Trajan, and reconstructed in 1584. Britain and France have lighthouses which were built by the Roman conquerors. The famous Cordova Tower of France, at the mouth of the Gironde, in the bay of Biscay, was completed in 1611, in the reign of Henry IV. After standing 287 years it was still considered to be one of the finest lighthouses in the world, although its height has been increased. The famous Pharos of Alexandria antedates both of the above by many years, as it was built 250 B. C., but it is not always considered a lighthouse.

PROMINENT COUPLE MARRIED

Frank A. Spoon and Miss Luella Barlow
Joined Heart and Hand

Last evening in the town of Plymouth occurred the marriage of one of Janesville's most prominent young men to one of Plymouth's fair daughters. The happy young couple were Frank A. Spoon and Miss Luella G. Barlow. The ceremony was performed at 8 o'clock by Rev. R. O. Denison of this city, at the home of the bride's father, Abel Barlow, in the presence of about sixty of the friends and relatives of the contracting parties. Several from this city were present, a carryall conveying the party to and from the scene of the happy event.

The bride has been one of White-water's most prominent teachers for several years and is a young lady of many accomplishments and possesses a large circle of friends.

The groom is a young man held in high esteem by all classes, especially among the members of the Congregational church, with which he is identified and a hard working member. He possesses many excellent qualities. He is the junior member of the firm of J. F. Spoon & Co. His many friends join in extending congratulations.

The young couple took no wedding trip but at once came to their pleasant home in this city, 108 Terrace street.

The bridal party on reaching their home last night found it decorated with banners announcing that the residence would be occupied by F. A. Spoon and bride and other trite wordings too numerous to mention.

The bride received a large number of presents and a club of which both the bride and groom were members gave them a large number of household articles.

A RICH TREAT IS IN STORE

William Owen at Myers Grand Next
Tuesday Evening.

A rich treat is in store for our theatre-goers at Myers' Grand, Tuesday, May 16—William Owen in "The Three Guardsmen."

This line is familiar to nearly every one of fiction or romance. Every boy has read, or should read, "The Three Guardsmen." It is full of romance, adventure and excitement. From start to finish it is one round of stirring events. In the play there is a climax, and not hardly a dull moment during the evening. The curtain goes up on a stirring scene, swords' combats, duels and fencing bouts are seen in almost each act, and the last act is one of the strongest ever written. The play has all the fire and go of a drama, with pretty touches of nature and romance, and the comedy vein is strong throughout. William Owen makes one of the very best D'Artagnans, and his support is powerful, there not being a weak or poorly played part in the entire production.

A Distant Brother.

A Boston woman had a servant named Norah, a rosy-cheeked girl, who received frequent calls from a young man, of whom she often spoke as "me brother." The consternation of her mistress may be guessed when one day Norah announced that she was soon to marry the servant "Tim." "What do you mean, Norah?" demanded the lady, feeling that a poor trick had been played upon her. "You've always spoken of Tim as your brother to me." "Yes, ma'am," said the blushing Norah. "I always thought of him so, ma'am, while he was making up his mind; but he's been so bowled as to remind me, ma'am, that he's only me brother-in-law's brother, aither all!"

Berlin's Domestic Kicking.

From Berlin come reports that the servant girl question is raising disturbances in the German capital. The girls are demanding more money and more liberty. Maids of all work, who can do plain cooking, get yearly wages equal to \$80, or \$5 a month. Among other things the girls demand two weeks' vacation, with pay, each summer, and a proportionate increase in pay for serving families that live up three or four flights of stairs. A high-class cook in Berlin draws \$90 a year, and the children's maids work for \$35 to \$40 a year.

"Well, sir, there's no use talking, the women are always surprising us. You never can tell about them."

"Why? What's up?"

"Didn't you notice it? Your wife and mine talked for nearly twenty minutes and neither asked the other if she knew of a good dressmaker."

ROCK RIVER SHELLS IN GREAT DEMAND

EASTERN BUTTON FACTORIES USE LARGE NUMBER.

Are Taking the Place of Shells That Were Imported From India and Australia—Domestic Shells Low in Price Compared to the Imported Article.

One of the chief industries developed in the northwest during the last few years is the manufacture of pearl buttons. This is practically a new business in the United States. A few years ago the annual imports of pearl buttons amounted to \$12,000,000, but since the passage of the last tariff act the imports have dwindled to a very small figure. The largest button factories in the United States are in Newark, N. J., but of late several good sized concerns have been opened in the west. The chief of these are at Sabula, Dubuque, Cedar Rapids, Clinton and Muscatine, Iowa; and Janesville, Wis.

The eastern factories formerly used shells imported from India and Australia, but latterly these have given way to the clam shells found in the Mississippi river, in the Rock river, Illinois, and in the Cedar river, Iowa. From these shells, which were never before utilized, a big industry has arisen. The shells are gathered in large quantities by waders, who receive from one to three cents a pound for them. Some of the specimens are four inches across, and for all practical purposes they are as good as the imported article, save in depth of coloring.

The price paid for the domestic shell is remarkably low as compared with the cost of the imported shell, which sells in New York for 40 or 50 cents a pound. Fifteen pounds of buttons can be obtained from 100 pounds of shells, and the fact has led some of the eastern manufacturers to establish button blank factories in the west. The machinery in these punches out the disk which makes up the button, and the manufacturer escapes the payment of freight charges on 85 per cent of dead material. At the Janesville factory a large force is now employed and the outlook is most promising.

A TIP TO ROCK CO. FARMERS

Unique Operation In Shearing Sheep By Electricity.

Rock county farmers, especially those engaged in raising sheep, will be interested in the following account of a unique operation in shearing sheep by electricity, carried on at the state university farm:

During the past two days sheep shearing by electricity has been carried on at the university barn. The apparatus used is a big hair clipper worked by a flexible shaft. The clipper is run under a sheep's coat just as a barber mows off a head of hair. The whole outfit costs only \$25, and it only takes about a half an hour to learn to use it. It is a vast improvement over the old method of hand-clipping. The old method was extremely exhausting. The machine was used experimentally last year and this year thousands are being turned out. In South St. Paul, 80,000 sheep were sheared this spring in this manner. The shearing is done by Frank Kleinheinz, the university shepherd. There are about 100 sheep on the university farm, mostly Dorsetts, and the average fleece will weigh about ten pounds.

Ask your grocer for "T. & T." brand coffee. It costs a little more than ordinary brands, but if you once taste it, you will drink no other kind.

"Things Ill Gotten Are Ill Spent."

This is true of the man whose physical condition has forced him to call upon his nerves to make good the depletion of the rest of his system. The overdrawn business man is overdrawn because he lacks proper capital. The capital of the physical man is pure, wholesome, life-giving blood.

Ulcer—"That other sufferer might benefit from my horrible experience of 18 months with nine good sized ulcers below the knee. Doctors frankly said 'incurable,' but I would not give up. Took Hood's Sarsaparilla for nearly a year and was thoroughly cured. It is now 1 1/2 years since and I am well and hearty." MRS. EILEEN LLOYD, Box 4, Plains, Pa.

The above is condensed from a grateful 1500, word letter.

Headaches and Vomiting—"I had headaches and vomiting spells and was very low. I would not be believing today but Hood's Sarsaparilla brought health back and I am now well." MRS. ALONZO NOYES, Chelsea, Vt.

Scrofula—"From a babe to 21 I was afflicted with scrofula. It disappeared but at 37 it came on again, nearly a dozen tumors forming on neck in two years. Doctors gave me up but Hood's Sarsaparilla in three months made me in perfect health." GEORGE A. ZIRKLE, School Teacher, Mount Horeb, E. Tenn.

BILLY RICE THE BEST PART

His Stories at the Hotel Better Than His Comedy Company

Billy Rice made his bow to Janesville play-goers last night as manager. He couldn't forget his minstrel ways, however, and the stories he told in the hotel office before and after the performance were a good deal funnier than anything his company did during three acts of "A Jolly Night."

The piece is an adaption from the French and the adaption has been awkwardly done. There are many funny situations but too much explanation is required in reaching them. In the hands of a clever, snappy company the piece might go off very well, but the Raymond-Cooling combination lacks the requisite dash and assurance.

There was no lack of dash and assurance about the acrobatic dancing of Belle Lovejoy, however, and there were songs by Elmore Jerome and Miss Cora Dawson that pleased the audience greatly. As a whole the specialties were better than the body of the performance.

THESE HEARTBREAKING DAYS

Wisconsin Officials Must Give up Pasteboards.

These are heartbreaking days for officials in Wisconsin. The time has come when free transportation is to be only a fond memory. The Wisconsin Central road was the first to take action on the new anti-pass law by calling in the pasteboards, and similar proceedings will be followed by other roads in the state and the officeholder will soon become as other people are in the matter of free rides. The pass holders are cheered up however by a report which says the anti-free pass law will be published and go into effect Saturday, and from that time on it will be a state's prison offense for any public officer—state county, municipal or town—to use a free pass or accept any favor from a railway, telegraph, telephone, express or sleeping car company. About thirty notaries public have resigned in order to retain the passes, also several members of the Republican State Central committee have declined further honors.

Chicago Live Stock Report.

Chicago, May 10.—Heavier receipts than came one week ago rendered the current of general trade more sluggish today. Bids on cattle were 10c lower at the start and a good share of the steers had to sell weak to 10c off. Hogs went at prices weak to 5c lower, or nearly 10c below the level of Monday's sales. Heavy sheep were slow sale and lower, while light handy lambs sold at the highest prices of the season, clipped at \$5.65, and many choice woolled lots at \$6.20@6.25. Today's receipts are estimated at 16,000 cattle, 29,000 hogs and 18,000 sheep. Later trade in all branches had strong enough tone to consume most of the useful offerings in each branch.

Thrasher Trust Now Being Organized—May Build in Russia.

Richmond, Ind., May 11.—News is given out here from inside sources that the capital of the thrasher trust now being formed will be \$100,000,000. Twenty-eight companies will be absorbed. It is said a fund of \$10,000,000 will be set aside for the purpose of building an immense factory in Russia. The consideration for the Gaar, Scott & Co. plant in this city is said to be \$5,000,000.

Anti-Trust Bill Is Passed.

Lansing, Mich., May 11.—The senate Wednesday passed the anti-trust bill which prohibits the organization in Michigan of any trust or combination designed to prevent competition or control prices. All such combinations are declared to be conspiracies against trade, and the penalty runs against any person who, as agent or otherwise, aids in the business, as well as against the principal. Violations are punishable by forfeiture of the right of the corporation to do business in the state while individuals are to be subject to a fine of from \$50 to \$5,000, or imprisonment from six months to one year. Each day's violation is made a separate offense. There is little doubt that the bill will pass the house.

Advance in Farm Implements Has Been Decided Upon.

Chicago, May 11.—Western manufacturers of corn-shellers, feed-cutters, grinding mills and cider presses yesterday agreed to make a general advance of 15 per cent in the prices of their implements. The agreement was the result of an all-day conference, at which were represented the leading manufacturers in this line whose individual financial investment in the business is from \$20,000 to \$200,000. The factories in the combine practically control the western manufacture of implements in their line and it was at the instance of Charles E. Whitman of St. Louis that their representatives got together and agreed upon the advance in prices. The result is that the farmer will pay more for these implements.

JEFFERSON ON WAR.

It might not be out of place, at this time, to call the attention of some of the alleged "Jeffersonian democrats" who are seeking to make political capital out of the war, to the following sentiment uttered by Thomas Jefferson himself:

"The sword once drawn, full justice must be done. Identification for the past, and security for the future should be painted on our banners."

"I think it to our interest to punish the first insult; because an insult unpunished is the parent of many others."

"The most successful war seldom pays for its losses."

"The evils of war are great in their endurance, and have a long reckoning for ages to come."

"The justest dispositions possible in ourselves will not secure us against war. It would be necessary that all other nations were just also. Justice, indeed, on our part, will save us only from those wars which would have been produced by a contrary policy. But how can we prevent those produced by the wrongs of other nations? By putting ourselves in a position to punish them. Weakness provokes insult and injury, while a condition to punish often prevents them."

As Jefferson said, nothing that we may do ourselves will preserve us from the wars brought on by others. We have come into the possession of the Philippines through the fortunes of a war resulting from the wrong done by another nation. The evils and benefits consequent to war are well stated in the paragraphs quoted; but destiny has made us answerable to the world for the welfare of a people, and also for the lives and properties of the representatives of other nationalities who have cast their lot among this people. We cannot shirk this responsibility. It was forced upon us, and we could not accept it. Therefore, as Jefferson said, "the sword once drawn, full justice must be done." We must "punish the first insult," and thus prevent others. When this is done peace will come to us, and to the people whom we can now best serve by protecting them against themselves.

Therefore, if the war is to be made a political hobby horse by the democratic press of the Chicago Chronicle stripe, the organs must renounce the policies of Thomas Jefferson. They cannot complain because Jefferson's advice has been adopted, and the truth of his assertion verified. The energetic democratic "anti-expansionists" cannot well advocate the sheathing of the sword before "full justice has been done" unless they renounce the wisdom of the man whose memory they revere as their greatest leader.

If Jefferson were with us today he would be found supporting the administration of the government, and pointing the finger of scorn at the men who try to make political capital out of a situation that involves the honor of the nation, and the lives of its patriotic sons. Jefferson was a man, not a mouse. He was a patriot before he was a partisan, and in these qualities lay his popularity and his worth.

If the teachings of the Chronicle class of partisan papers are followed, there will be no more Jeffersons or Lincolns. As their successors there will grow up a race of men who place political creed above their allegiance to the government. They will fight their own country rather than support the flag unless it is carried by a man of their particular political belief—they will prefer to be little partisans rather than big Americans!

But this will not come to pass. The real democrats and the real republicans cannot be misled by the counterfeits. They are American citizens, and are true to their native land. When danger threatens they will be found shoulder to shoulder, rushing to the fray under a banner bearing Rufus Choate's famous saying, "We join ourselves to no party that does not carry the flag, and keep step to the music of the Union."

The Milwaukee News shows its belief

in the policy of expansion by erecting a handsome new building with all the modern improvements that are so dear to the "plutocratic press." The News started twelve years ago with nothing but a boundless fund of energy, but today it has everything it needs and money to build business blocks. We congratulate The News on its success and trust that while the corporation may become rich, it will never become "souless."

Under the provisions of the new game law, a person cannot even shoot the chutes or fish for compliments without getting a post's license and a nickel plated dog tag, while an unloaded gun becomes much more deadly than it ever was before.

Now that a Chicago man has discovered a process that makes gun cotton available as a projectile, as it will not explode until he wants it to, we may confidently expect to see some other Chicagoan get up a machine to harness tornadoes.

England and the United States, it is said, will stand together for arbitration at the Ozar's disarmament conference. And when Uncle Sam and John Bull say "arbitrate," it means arbitrate or fight, so arbitration—or a fight—is likely to be the result.

Wisconsin couples are now going to Rockford, Ill., to get married thus avoiding the five day clause of the Wisconsin law. The course of true love, it seems, doesn't run any smoother now than it used to.

Perhaps it would be well for the promoters of the \$50,000 Dewey banquet scheme to revise the suggestion once offered to less pretentious cooks, so that it will read "First get your Dewey."

If Admiral Dewey can be induced to take that proposed trip across the country he will get a pretty good idea of what sort of a people he lives among, and no mistake.

Governor Thomas, of Colorado, says he didn't say it, and the whole country will gladly take him by the hand in consequence.

And now the United States troops in Alaska ask to have canned beef sent them in liberal quantities!

Two rival bicycle trusts are now seeking to puncture each other, and the world hopes that they will succeed.

Vests of Paper.
There is a new rival to the chamol's skin vests so long worn by women for extra warmth. Those who have worn them pronounce them less bulky, just as warm and less expensive than the chamol's. They are so cheap, indeed, that they can be thrown away and a new one purchased without troubling the conscience of the woman with only a moderate purse.

SHIP TWENTY-FIVE CARS OF TOBACCO

LARGEST SINGLE SHIPMENT FROM THIS CITY.

Alfred N. Jones, of this city, is the shipper—will form a train that will leave for the east Saturday via the Milwaukee Railroad.

Twenty-five cars loaded with leaf tobacco will leave Janesville Saturday of this week for eastern points.

By this consignment it will mean the departure from this city of the largest single shipment of leaf tobacco that was ever made at one time.

Alfred N. Jones, who conducts the two warehouses at the corner of Main street and Pease Court, is the shipper, and Cincinnati, New York and Philadelphia leaf dealers are the purchasers.

Workers have been busily engaged since Monday loading this large shipment which will leave over the Chicago, Milwaukee & St. Paul railroad.

Local railroad officials say that the consignment will make a special train of its own, and that the orders are to send it east on schedule fast freight time.

The purchased stock is '97 and '98 goods, grown in Rock county, and handled in this city, having furnished work during the past winter to a large force of hands.

Each car when loaded for shipment will average sixty cases, and the average case will weigh three hundred pounds.

By the shipment of this twenty three car consignment it establishes a leaf tobacco shipping record from this point that is not liable to soon be outdone.

George Decker of this city, reports the sale of two hundred and fifty cases to eastern parties.

Samuel Grundy has also sold to eastern buyers three hundred cases of leaf.

PIONEER RESIDENT DIES

Alexander C. Resseguie Passed Away Last Evening.

Alexander C. Resseguie, one of the pioneers of Wisconsin, passed into the shadows of the unknown beyond last evening at 5 o'clock, at the advanced age of ninety years. He was taken ill with the grip about three months ago and since that time has continued to fail until death came as a relief and ended all earthly sufferings.

The following facts are found in the Rock County Biographical History:

Alexander Case Resseguie was a native of Northampton, then in Montgomery county, now in Fulton county, New York, and was born Sept. 13, 1809. He was therefore in his ninety-ninth year of his age at the time of his death. He was descended from Huguenot ancestors, who left France on account of religious persecution. He was the fourth of eight children, and until he attained his majority he remained under the parental roof, attending district school during the winter season. In 1833 he entered the employ of his uncle as bookkeeper and the following spring he entered Yates County Academy as a student. He taught and attended school alternately for several years. In the spring of 1856, the first year of the organized existence of the Republican party in Rock county, he was elected county clerk for two years and in consequence moved to this city. On the election of his successor, Levi Alden, Mr. Resseguie was made deputy clerk and continued to keep the records of the county during the term of Mr. Alden. In 1864 Mr. Resseguie again entered upon agricultural pursuits, but the following year sold his farm and once more returned to Janesville that he might secure better advantages of education for his children. In the same year he purchased the home on Benton avenue, where he continued to live the remainder of his days.

On February 22, 1889, the deceased was united in marriage with Miss Jerusha Norton. The result of their union was four children, three of whom are still living. They are Rufus R. Resseguie, of Ottumwa, Iowa; Charles F. Resseguie, of Galveston, Tex., who is superintendent of the Gulf, Colorado and Santa Fe Railroad, and Miss Jessie Resseguie, one of the teachers in the public schools of this city, who has devoted her life to her father and mother in ministering to their wants. Mr. Resseguie died in July of 1897, and Mrs. Resseguie has been blind for some time.

Deceased was a Republican. His first presidential vote was cast for Andrew Jackson in 1832. Later he became a Whig and since the organization of the Republican party affiliated with that political body. Besides the office of county clerk he served as township clerk, holding that position when elected to the first mentioned office and was assessor in the city of Janesville in 1896. He was a man of much force of character, of varied and extensive reading, possessed an excellent memory and was well informed on the general topics of the day. He died possessed of the respect and esteem of his fellow citizens.

Mr. Resseguie had been a member of Wisconsin Lodge No. 14, I. O. O. F. since 1857.

Funeral services will be held at the home on Benton avenue tomorrow afternoon at 2:30 o'clock. Friends of the family are invited.

William Dettmer
Funeral services were held over the remains of the late William H. Dettmer of the town of Plymouth this afternoon and the remains laid at rest in the Plymouth cemetery. Services were held from the house at 1:30 o'clock and from the M. E. church at 2 o'clock.

FROZEN ORANGE WHIP.—Early in the morning beat together one cupful of sugar and two-thirds of a cupful of water until thick. Add the grated rind of two oranges and a hot water of a cupful of juice. Cover and keep warm for an hour, then strain and cool. Stir this lightly into a pint of cream whipped to a solid froth. Give ready a mold half buried in ice and salt; also cut two oranges in half, take out the pulp with a spoon, remove the seeds and drain off the clear juice. In the mold put a layer of the whip, sprinkle in some of the orange pulp and continue until the mold is filled. Cover and keep in the mold until the next day. Cut the whip with a strip of muslin dipped in melted butter or hard and bury in ice and salt until dinner time. Very delicious.

DID HE DISPENSE WITHOUT LICENSE?

COMPLAINT FILED AGAINST A LANDLORD.

According to Several Witnesses Sworn This Morning, It is Alleged That A. J. Wilson, of Johnstown Center, Has Been Violating the Law—Assault and Battery Case.

Several well known farmers of the town of Johnstown entered the municipal court this morning and before Judge Fifield swore that the selling of liquor was going on at Johnstown Center in violation to the laws of the state of Wisconsin.

The subpoenaed witnesses stated that the liquor in question was being sold by A. J. Wilson, landlord of the hotel at Johnstown Center.

District Attorney Jackson conducted the proceedings, but whether or not the testimony given this morning was of sufficient strength to merit the issuance of a warrant for the arrest of the alleged guilty parties is a question which remains to be seen.

Assault and Battery.

At 10 o'clock this morning before Judge Fifield was called the assault and battery case of the state of Wisconsin vs. Elsworth Caldo.

The defendant is a resident of the town of Johnstown, and is the son of James Caldo.

Alex. Hay, a well known farmer of the town of Johnstown, is the complaining witness, and according to the complaint filed, alleges that Caldo assaulted him on the afternoon of May 9. While returning from work in the field, Hay alleges that Caldo beat and bruised him.

Attorney John Cunningham who appeared in behalf of the defendant, asked for an adjournment this morning on the grounds that the defendant's father was a material witness in the case, and that he was not able to appear for at least ten days, on account of fractured ribs, caused by being kicked by a horse.

Attorney M. O. Mouat for the state, objected to a ten-day continuance, and the case was set for 2 o'clock this afternoon.

At 2 o'clock this afternoon when the case was called it was adjourned till Friday, May 19, at 10 o'clock.

The defendant furnished \$50 bail.

Eastern Moneyed Men Are the Ones Who Are Interested—Representatives Will Soon Arrive in Milwaukee to Close the Deal—Options Are Obtained.

Options have been secured on a majority of the stock of the Wisconsin Telephone company by an eastern syndicate, and representatives of the combination will reach Milwaukee the last of the week for the purpose of "closing up the transaction, and taking possession of the property. The price paid for the stock is \$1.25 a share. There is no secret made of the transaction, except that the names of the purchasers will not be given out until after the deal has been concluded and the property is ready to be transferred.

"It is true that options have been obtained on all the stock of the Wisconsin Telephone company," said Frank G. Bigelow, vice president and treasurer of the company, last evening. "The options have been secured by eastern capitalists, but further than this it will not be proper for me to say anything at this time. Representatives of the contemplated purchasers will reach Milwaukee the latter part of the present week, and then you will find out all about the transaction. That is all I can say at this time."

The transaction will include not only the telephone system in the city of Milwaukee, but all the lines operated by the company in the state of Wisconsin, including the Janesville exchange and the long distance lines by which it is connected. The company has about 8000 subscribers in the state.

REASON FOR EXTRA SESSION

President Desires to Have the Responsibility Shared.

OUR POSITION IN THE EAST.

Congress Must Help Settle the Philippine Question and Also Take Up and Solve the Currency Problem—Senators and Representatives Warned.

New York, May 10.—A special to the Tribune from Washington says:

"The revival of the talk of an extra session of congress has more behind it than idle gossip. The contingency has been discussed at a cabinet meeting and a member of that body who was present at the time is authority for the statement that the president's mind is strongly inclined toward such a move. Two reasons chiefly control the president in this matter. He wishes the policy of the government with respect to the Philippines defined and the currency question disposed of before the party enters the campaign of 1900. The president has declared his belief to his advisers that peace will be established in the Philippines within the next thirty days, and that the ownership and possession of those islands will no longer be disputed. This subject coming to him soon, he does not care to formulate a policy with respect to their government, the degree of home rule to be granted to them, etc., without the aid of congress, in whose hands he placed the whole subject in his message to that body. Another powerful controlling motive that is actuating the president is his strong desire to have early and positive action taken with respect to the currency question. He is said to be not thoroughly satisfied with the results of the deliberations of the republican house caucus committee, which recently formulated a bill for introduction in the house when it convenes again. Although the members of that committee are unusually reticent, it is understood that the committee has not in all respects followed the suggestions of the president.

"Four strong points were brought out by the president, and the committee was thoroughly acquainted with his position. These recommendations were:

"1. A provision that will make the so-called endless chain caused by the redemption of greenbacks with gold and consequent runs upon the treasury reserve impossible.

"2. That national banks be permitted to issue circulation up to the par value of the bonds deposited to secure that circulation instead of only 9 per cent, as at present.

"3. A reduction of the tax on national bank circulation, the present tax being 1 per cent.

"4. That national banks with a capital of only \$25,000 be authorized to be established in small towns, the minimum now being \$50,000.

"Not being satisfied that the measure formulated by the house committee meets the situation the president wishes the whole question taken up and disposed of as early as possible, so that it may not be a factor in the coming campaign. This also appears to be the view of the leaders.

"In his talks with senators and representatives, particularly those who intended spending the summer abroad, the president has intimated the possibility of a legislative emergency that would require their presence in Washington earlier than was thought likely when the LVth congress adjourned."

Big Fire in Kansas City.
Kansas City, Mo., May 11.—The big five-story warehouse of the Newby Transfer and Storage company, at 1216 and 1218 Union avenue, was destroyed by fire last night. The loss is estimated at more than \$100,000. James G. McNellis, foreman of No. 4 truck company, with five other firemen, after the falling of a rear wall, went in upon the debris with a line of hose. The foreman came in contact with a live electric wire that had been carried down with the roof of the building and was instantly killed.

New Links in the Pass Law.
Madison, Wis., May 11.—Atty.-Gen. Hicks has held in several cases that the anti-pass law does not apply to railway employees who have passes which are given them in part payment for their services. He has also held in one case that a public officer who has a pass given him in settlement of a claim against a railroad can use it without violating the law. The sense of the opinion is that the passes are not free passes within the meaning of the law, and therefore are not forbidden.

Chiefs Elect Officers.
Chattanooga, Tenn., May 11.—The police chiefs devoted Wednesday to the election of officers. The following were elected: Chief Leslie, Pittsburg, president; Chief Hill of this city, vice-president; and Chief Carr of Grand Rapids, Mich., secretary and treasurer.

It was voted to hold the convention next year at Cincinnati, Ohio. Chief Farley of Denver, Colo., gave notice that he will ask for the convention year after next.

Transvaal War Still Likely.
Johannesburg, May 11.—While popular anxiety here is somewhat allayed in consequence of the expected conference between President Krueger and Sir Alfred Milner, governor of Cape Colony and high commissioner of South Africa, the continued tension is having a bad effect upon trade, and it is accentuated by the uncertainty regarding the attitude of Great Britain.

PULLED THEM UP.

And Franz Was Perfectly Placid About the Matter.

The woman who has a country house comes to town these days and tells tales of her trials and joys, says the New York Commercial Advertiser. She came in from Long Island for a day's shopping last week and after glowing accounts of her flower beds and the wonderful kitchen garden she had planned for the summer, she said: "We always have curious experiences with garden workers and farm hands; not that we do much farming, but we have to have some one to watch over the potatoes and keep an eye on the peas. This year we have a fine man, and our garden is like an English picture. But Franz was not so good when we got him. He came to help our farm hand, Peter, and Peter set him to work in the onion patch. The onion patch was the pride of my life. It was flourishing as nothing—but weeds—had ever flourished in my garden, and I took more interest in its progress than I did in my rose bower. Well, after Franz had been busily bending over the onion patch one morning, Peter discovered to his horror that his assistant had pulled up all the big onions. Nothing but little ones remained. When the storm of questions and reproaches broke over his head Franz said placidly: 'Why, the big ones were crowding the little ones. They hadn't room to grow. I wanted to give them a chance and I pulled the big ones up.'"

New Gold Field Found.
San Francisco, Cal., May 11.—The Examiner prints a story regarding the new gold discoveries at Point Nome, in Alaska, which its advisers declare to exceed in richness those of the Klondike. The strike is on the Snake river and its tributaries, about twenty miles back from Cape Nome and 120 miles from St. Michaels—just outside of the St. Michaels military reservation of the United States government. The mines are all in American territory. Rich finds also are reported on the Koyuk river, one of the northern tributaries of the Yukon. These are also on American soil.

Report from Admiral Kautz.
Washington, May 11.—The following cablegram was received at the navy department today from Admiral Kautz, on board the Philadelphia:

"Ankland, N. Z., May 10, Apia, May 3. Secretary Navy, Washington: Brutus arrived April 29. All quiet at Apia. Condition of affairs much improved. I have withdrawn marines from the shore, as presence is required no longer. KAUTZ."

Scotch Combine Unlikely.
Glasgow, May 11.—Representatives of the chief iron manufacturing houses of Scotland deny that a scheme has been submitted to them by an American syndicate headed by Andrew Carnegie to absorb the iron and steel interests of Great Britain. The men quoted declare that Scotch houses will never tie themselves up with American monopolists.

Buffalo Strike Practically Settled.
Buffalo, N. Y., May 11.—The trouble between Contractor Connors and the grain shovellers is nearer a settlement than at any time since the shipping season opened. The prospects are now that before the end of the week the whole matter will be straightened out, the grain blockade will be raised, and the men will be at work.

Editors to Meet in Warsaw.
Warsaw, Ind., May 11.—It has been announced that the Indiana Republican Editorial association meeting is to be held here July 13. The democrats have a similar association, which will meet at Maxinkuke lake.

Walker to Visit St. Louis.
St. Louis, Mo., May 11.—Commander Asa Walker of the Concord will be the guest of St. Louis next month. He won fame as an officer of Dewey's fleet at Manila, the Concord assisting in the destruction of the Spanish fleet.

NEW KIND OF ELECTRIC LIGHT.

It Is Lighted with a Match Just Like Gas.

In matters electrical nothing has attracted quite so much attention within the past two months as the Nernst electric light, which may be said to have been introduced to the public by Mr. James Swinburne in a paper recently read at London before the Society of Arts. Briefly put, the Nernst light, so named after its inventor, Prof. Walther Nernst, of the University of Göttingen, is an incandescent lamp without the usual vacuum bulb, and with the conventional familiar filament replaced by a rod of refractory material—an insulator when cold, but a conductor of electricity when heated. This rod is mounted on two platinum wires—a little paste, made of refractory oxides, being applied to the joints—and is mounted in a holder which fits ordinary electric light fittings. When the rod is worn out, a new one, with its wide mounts, is all that is replaced; the whole lamp is not thrown away. It is to be noted, however, that the Nernst lamp will not light up of itself, he rod, as stated, being an insulator when cold. The simplest way to start it is to warm it up with a match, or, better, with a small spirit lamp. The principal points made in favor of the new light are cheapness in first cost, low cost of maintenance and general efficiency, besides possibilities in the way of general economy in current distribution due to the permissible use of high voltages.—Cassier's Magazine.

He Knew.

Treaty with Canada to Fail.
Washington, May 11.—The gravest apprehension is felt lest the negotiations of the Anglo-American joint high commission, appointed to frame a treaty between the United States and Canada, may not result in an agreement. While there is no authority for saying that the commission will not reassemble in Ottawa in August, according to the plan arranged at the time of the adjournment last February, it is apparent that the state department expects no successful result from this meeting.

A LONG-FELT WANT.
It Is Supplied At Last In Janesville.

It is hard to always be a good man. Good natured people are often irritable. If you knew the reason you would not be surprised. Ever have itching piles? Not sick enough to go to bed or well enough to be content. Nothing will annoy you so. The constant itching sensation. Hard to bear; harder to get relief. Keeps you awake nights. Spoils your temper nearly drives you crazy? Isn't relief and cure a long felt want? It is to be had for everyone in Doan's Ointment. Doan's Ointment never fails to cure itching piles. Eczema or any itching of the skin. Here is proof in the testimony of a citizen:

Mr. L. Lawrence, of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says: "I tried about everything recommended for itching of the skin, but found nothing to give me relief until I struck Doan's Ointment, which I obtained at the People's drug store. I had an affliction of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and made it sore. I could hardly stand shaving, for the skin broke and bled. A few applications of Doan's Ointment removed the itching and healed up my face in a few days. I would not be without this remedy in my house, and I certainly recommend it to others in need of such a preparation."

Doan's Ointment is sold for 50 cents per box by all dealers. Mailed on receipt of price by Foster-Wilburn Co., Buffalo, N. Y., sole agents for the U.S. Remember the name, Doan's, and take no other.

WINE OF CARDUI

Woman's Crowning Virtue.

BELTON, Mo., July 27.
For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

WINE OF CARDUI

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

WINE OF CARDUI

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. The Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scar which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific.

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.; nothing can take its place. S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

Buggy Sense. . .

Which pays you best—to buy a vehicle at a low price, with nothing but the outward appearance and the seller's word for its worth—one that is liable to break down or go to pieces in a year or two; or to add a very little more to the price and buy a Buggy direct from the maker—with a reputation covering many years for quality, style and workmanship behind it as a guarantee. "CHEAP" work of any kind is an unknown quantity with us. We build Buggies to stand the severest strain, and are right here on the ground to verify any statement we make.

WHERE DOES THE MONEY GO ?

A puzzle to many people; so much so that the thought of tracing expenses fairly scares them. But whether you trace them or not the fact remains the same—that many dollars can be saved each year on your provision item alone by trading at this store. These words are truth. We offer more bargains in high qualities than any other house in Southern Wisconsin, and they are not occasional either. One continual round of money savers.
